

OUR MISSION

To improve the quality of life and equity in our communities by providing accessible and integrated health and social services, ending homelessness, and offering unique learning opportunities for students of health professions.

ABOUT US

Founded on the principles of compassion and community, we serve primarily low-income and disadvantaged individuals and families, ensuring that everyone, regardless of their background or circumstances, receives the care they deserve. *Join our team today!*

IN YAKIMA COUNTY,

we serve a population of over 240,000 individuals, including migrant and seasonal farm workers, residents in public housing, and those experiencing homelessness. Our commitment to serving the underserved extends beyond the walls of our clinics, with targeted outreach efforts reaching even the most remote areas of our valley.
